Press Release

Date 26.05.2020 For Immediate Release

New Skate Park Equipment, Somerton.

Somerton Town Council would like to announce a recent addition of a new half pipe ramp installation at Somerton Recreation Ground, Gassons Lane, Somerton. This equipment is officially open for use.

During August 2019, a questionnaire/survey was launched via our facebook and website pages and business cards for completing were distributed to Somerton Library, Co-op (previously Williams Supermarket) and to the "Skate Jam" event that took place on 19th August 2019, at the Recreation Ground. The purpose of the business cards was to collate choices of equipment that our users of the skate park might like as an addition to the skate park or what would be a preference and most popular addition to what was already being used.

This survey date completed on 7th October 2019 and a half pipe was the most requested piece of equipment chosen. Somerton Town Council Land and Property Committee invested £28,000 in this piece of equipment and we can confirm that since the lockdown, this equipment has now been installed and is successfully being used as of today (15th May 2020) and enjoyed by many young users under current government guidelines specifically related to the skate park.
